Hey there!

I'M KRISTI!

I am a Southern California girl, born and raised. Growing up, I was surrounded by four main things : family, music, church and photography. So, it is no wonder that those things have remained near and dear to my heart throughout my life.

Working alongside my husband, Jason and our son, Austin is one of the best parts of my job! Family is so important to us, and having a family business is just the icing on a very sweet cake!

While we love photographing many different types of photo sessions, weddings have become such a special part of our lives. As wedding photographers, we have a front row seat in such a memorable day, and we're honored to play such an important role. We adore our couples! Their love stories touch our hearts deeply. And we work hard to showcase those stories in our work.

Jason and I eloped over 20 years ago. We don't have photographs to commemorate that day. Just our memories. And while we don't regret our decision in any way, photographs of our small ceremony are definitely missed. We understand how important they are. And we utilize that knowledge and experience in our time with each of our couples.

We truly love what we do! And we would love the opportunity to work with you!

WHAT to expect

FROM START TO FINISH

What is it that sets us apart from other wedding photographers?

One of our unique aspects is that we do not cap off our time with our couples. From getting ready, till the final send off, we're with you all day!

Why do we do this?

Weddings do not always go exactly along their planned timelines. It is inevitable that something happens that pushes the timeline back a bit. Our goal is to photograph your entire day, and we would never leave before all of your main events have happened and have been photographed. Such as your cake cutting, bouquet toss, etc.

Plus, more time spent with you allows us more time for fun, styled and unique photos!

WE'RE HERE FOR YOU

Whether you need your veil attached, make up touched up, hair fixed, or even a food run, we've got you covered. You are our priority, and we're with you, helping however we can!

ENGAGEMENT *Session*

CELEBRATING YOUR LOVE STORY

Engagement sessions vary in time from session to session. For some, an hour or two is plenty of time. For others, we spend all day traipsing around a location, with different clothing changes. Perhaps even stopping to share a meal with one another. Your session time will be unique to you and your vision for the day.

We will work with you to choose the perfect setting for your session time, as well as clothing options, if needed. We always come prepared with a utility wagon, so clothing changes, shoe changes, props, or anything else you may want to bring are welcome, and our wagon is there for your use!

Our photography style is natural, relaxed and fun! We give you prompts to follow, simple games to play, as well as pose you in more traditional ways. Our goal is for you to enjoy yourself and your time with us, and we work hard to make sure you do!

HOW TO CHOOSE

There are many factors that come into play with choosing your clothing for your engagement session. Such as the season, the weather, the session time, location, and overall vision for your photos.

Do you and your partner love the outdoors? Perhaps a casual session in the mountains is perfect for you.

Do you love city life? Perhaps a glamorous session in a downtown area is best for you.

Another option that we welcome is bringing multiple outfits so that you can change throughout your session. This offers a different look for your photos, and allows more visual variety.

Whatever your vision, we will help you create the perfect engagement session!

WEDDING *day tips*

PLAN FOR EXTRA TIME

This is THE BEST advice we can give to a couple! Give yourself more than enough time on the day of your wedding!

Hair and make-up take a lot of time. Start early. Give your bridal party an early arrival time. Someone is usually running late. This offers a buffer just in case.

The last thing you want on your wedding day is to be stressed. It is better to have more down time to sit back, drink champagne, relax, and take fun photos than it is to be rushed and panicked.

TAKE CARE OF YOURSELF

We know how easy it is to get so caught up in the celebration that we forget to care for ourselves. Remember this : You want to be at your best on the best day of your life!

Get plenty of sleep. Stay hydrated. Eat throughout the day. Don't stress! And of course, have an amazing time!

FIRST LOOK *vs* DOWN *the* AISLE

FIRST LOOK

While a bit on the non-traditional side, First Looks between the soon-to-be-married couple are one of our favorite parts of the day to capture! The excitement, the anticipation, the joy; it is absolutely one of the sweetest moments you'll experience on your wedding day!

First Looks offer a quiet, intimate moment shared between the couple alone. Away from guests, the hustle and bustle of the ceremony, the couple has a chance to simply be together, perhaps share a few words, exchange gifts, and of course take a few photos.

When done at the right time, First Looks also help to alleviate the time crunch after the ceremony. After a First Look, we are able to photograph the couple's romantic photos, bridal party photos and immediate family. This lessens the time needed after the ceremony for additional photos and ensures that the couple arrives at their reception grand entrance in plenty of time!

DOWN THE AISLE

There is nothing quite like a ceremony grand entrance! When the couples sees each other for the very first time, surrounded by family and friends! It is always breathtaking and heartfelt! And we are here for it!

The Down the Aisle look is a wonderful tradition that many couples choose. When choosing this option, time must be factored in. All of the couple's family photos, full bridal party photos, and romantic photos need to be taken between the ceremony and reception, so be mindful of the timeline.

PHOTOGRAPH CARE

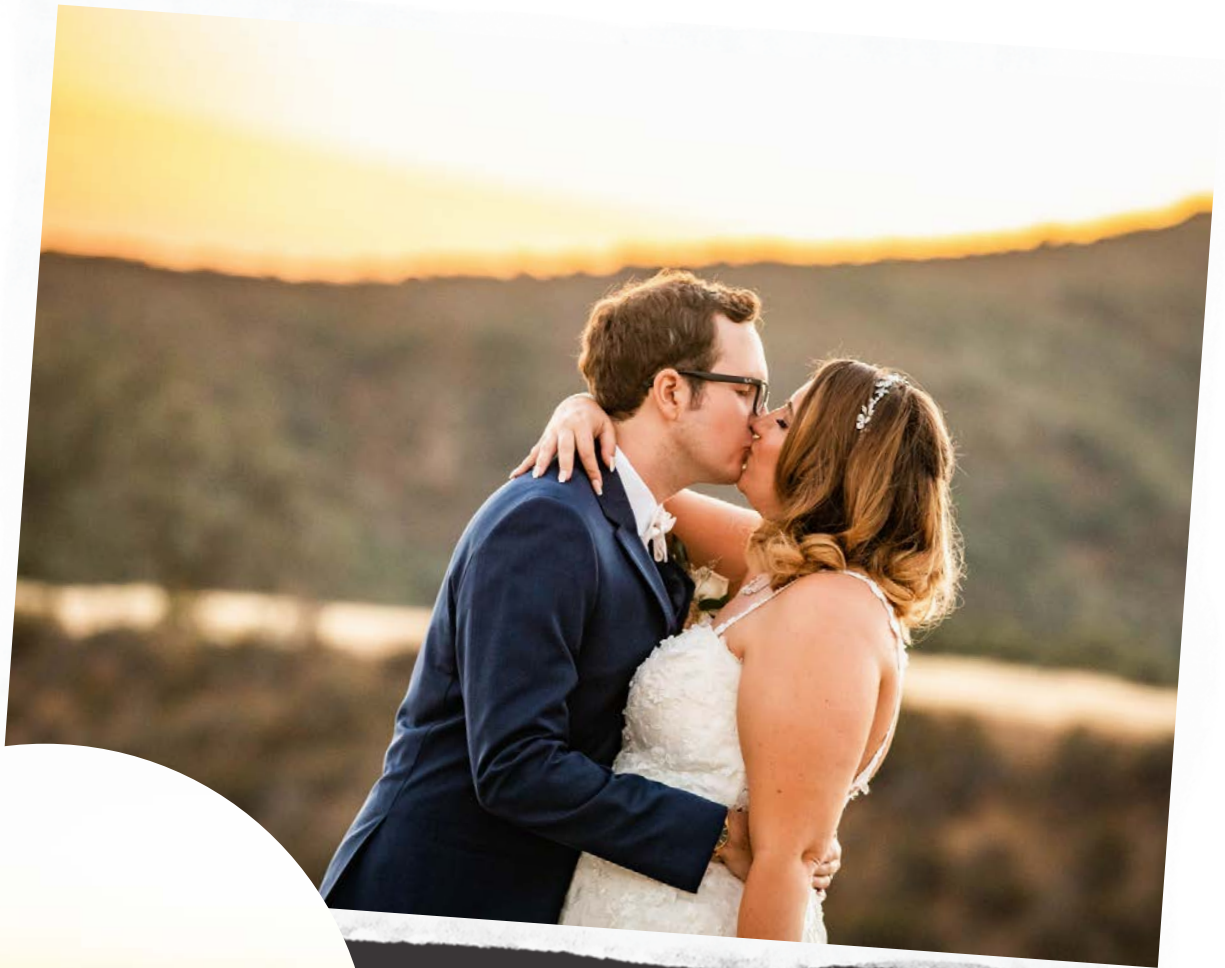

During your wedding day, your images are captured on multiple cards and cameras. Your images are our priority and we treat each one as such.

Immediately following your reception, we store your images on multiple hard drives until your gallery is completed and sent to you.

Once completed, you'll receive both a digital gallery, and a customized USB drive. Your digital gallery is private and password protected. You will be emailed a link with your password and PIN code. We will never share this information with others, however, you are free to do so. Many couples share their galleries with family and close friends, and we welcome you to do so if you wish!

Your USB drive will be mailed to you in a beautiful photo box 6-8 weeks after your wedding date.
